Please enter a description of the project. This could include what the piece is about, the artistic medium (ie, dance, theatre, immersive, etc), questions you are exploring with this work, or anything else you feel helps describe the project both physically and conceptually.

3. Why are you making this work?

What is interesting or exciting to you about this work? What do you hope to learn from making this work, and what are you hoping to share with an audience?

4. Where is this work at in the development process?

Has this work been performed before, is it currently in development, or somewhere in between?

5. Run Time

With very few exceptions, Cannonball shows are expected to be under 60 minutes. It's ok if you don't know the exact run time yet, just make your best guess!

6. Primary Genre (select one)

- Cabaret & Circus
- Children and Youth
- Comedy
- Dance and Physical Theatre
- Events and Film
- Literature and Spoken Word
- Music

7. Technical Requirements Narrative

Does this performance have any special technical requirements? It's OK if you don't know yet and it's OK if this changes. If you think your requirements might change, please understand that while we do our best to work with artist needs we are unable to accommodate all requests. If you are accepted into Cannonball, we'll ask more questions about this later.

It's especially important for us to know about:

- Large set pieces, massive (or massive amounts of) props, and anything that might need to be installed.
- Messes including dirt, glitter, liquids, etc.
- Rigging needs and vertical space requirements
- Special lighting needs including "full blackout," specials, spotlights, etc.
- Projection needs
- How flexible all of the above is!

If you have no special needs outside of basic sound and lighting at this time, please enter "none."

Section Three: Performance Location and Dates

Please review our Performance Space Guide [HERE](#) before making a selection.

1. Requested Performance Space

If your space preference is flexible, you may select your second and third choices below. If your work is site-specific/responsive, immersive, very intimate, or requires a very large or very small space, please select the corresponding option and we'll chat with you about how we might accommodate this need.

- Studio at Maas
- Icebox Project Space
- Christ Church Neighborhood House
- Liberty Lands
- Nooks and Crannies

2. Preferred Number of Performances

Most shows in Cannonball have 3-5 performances, but can have more or less than that. Taking into consideration the scale of your show, requested performance space, and estimated audience size. What is your preferred number of performances?

3. List any known conflicts for the month of September

By applying to Cannonball, we assume that you are available to perform on any date and time between September 1st and 29th. This gives us maximum flexibility to schedule as many artists as possible. Last year, our earliest weekday performances started at 5pm and our earliest weekend performances started at 12pm.

In our experience, local Philadelphia artists are more likely to sell more tickets if your performances are spread out over several days or weeks. For out of town

artists, we will instead schedule you in a concentrated block to maximize your time in Philly.

After our application period ends on April 16th, we will review applicant availability and send out a proposed schedule to all accepted artists by the middle of May.

If you have none at this time, please enter "none."

Section Four: Supplemental Questions

1. Artist Statement

Please include a brief artist bio, a few sentences about your artistic background, or some text about what you're "on" about artistically these days. - These videos do not need to be extremely high quality, they should last a minimum of one minute and ideally include more than one clip, view or perspective. The videos should also reflect your proposed show description and include elements of circus.
- Rehearsal footage is totally acceptable, but unfortunately if you are unable to submit any video samples of your work and specifically your work relating to this show example, we may be unable to consider your application.
